Brighter Future*

June 11, 2016

Dear Customers,

October of last year, you may have received a notification of our new "Infor" permitting system that we are working to implement.

We are still moving forward and are finalizing the testing and training of staff on the new system.

This process, involves a large majority of our staff and numerous hours from them to conduct the needed testing on the new system.

We have been working after hours to help minimize the impact to your projects, however we still expect our reviews and response times to take a bit longer than normal.

As of today, we expect to be in these final stages for approximately three months.

Once we complete our upgrades, we will be back to our normal timelines. The new system will have many new and improved features which will make your project's process more efficient.

If you have any questions or concerns, please feel free to contact Julio Dimas, Assistant Director at [juliod@cctexas.com](mailto:juliod@cctexas.com) or 361-826-3276.

Julio Dimas, CFM
